Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
			<ul style="list-style-type: none"> • Regrouping of Ones to Tens • Addition by regrouping Ones to Tens (2- and 3-digit numbers) • Regrouping of Tens to Hundreds • 3-Digit Addition by regrouping — Tens to Hundreds 	<ul style="list-style-type: none"> • Adding 2- and 3-digit numbers by regrouping (Additions give sums of values till 999) • Solving story sums of addition 	
Part 2	August	Unit 3: Subtraction	<ul style="list-style-type: none"> • Subtraction facts • Subtraction without borrowing • Subtraction using the hundred chart • Borrowing and regrouping in 2- and 3-digit numbers • 2- and 3-digit subtraction by borrowing and regrouping 	<ul style="list-style-type: none"> • Identifying and using subtraction facts • Subtracting by counting backwards and by using hundred chart • Subtracting 2-digit and 3-digit numbers without and with borrowing and checking them • Relating subtraction with addition 	<ul style="list-style-type: none"> • Pointing out the place of borrowing • Subtraction in real life • Math Lab Activity - Game of subtraction with dice

MATH

Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
	August	Unit 4: Multipli- cation	<ul style="list-style-type: none"> • Repeated addition in equal groups • Multiplication of rows and columns • Skip Counting to multiply • Skip Counting and Multiplication Tables 	<ul style="list-style-type: none"> • Multiplying using equal groups, rows and columns • Showing multiplication as repeated addition on a number line • Writing the multiplication times table of 1—10 	<ul style="list-style-type: none"> • Completing day-to-day work chart using repeated addition • Showing multiplication by repeated addition by drawing equal groups • Showing multiplication by drawing objects in rows and columns • Multiplication in real life
	September	Multipli- cation (Contd.)	<ul style="list-style-type: none"> • Multiplication facts • Multiplication by Column Method • Multiply without carrying over in 2- and 3-digit numbers • Multiply with carrying over in 2- and 3-digit numbers 	<ul style="list-style-type: none"> • Using multiplication facts and times tables to answer questions • Multiplying 2-digit and 3-digit numbers with 1-digit number without and with carrying over • Following and solving multiplication related story sums 	<ul style="list-style-type: none"> • Math Lab Activity - Multiplication grid

MATH

Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
Part 3	October and November	Unit 5: Division	<ul style="list-style-type: none"> • Making equal groups • Division as repeated subtraction • Division facts • Division by using multiplication facts • Long division 	<ul style="list-style-type: none"> • Relating repeated subtraction with division • Making equal distribution pictures • Dividing using multiplication facts • Relating multiplication with division • Using division facts to solve questions 	<ul style="list-style-type: none"> • Division in real life • Math Lab Activity - Show your division
	November	Unit 6: Fraction	<ul style="list-style-type: none"> • One-Half • One-Fourth 	<ul style="list-style-type: none"> • Differentiating between whole and part • Identifying and making halves and quarters from a whole • Identifying, reading and writing basic fractions in number and words • Differentiating between fractions of different types 	<ul style="list-style-type: none"> • Showing 'whole' and 'half' • One-half in real life • One-fourth in real life • Math Lab Activity - Making one-half and one-fourth by paper folding

MATH

Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
	December	Unit 7: Time and Calendar	<ul style="list-style-type: none"> • The Clock • Measuring time • Anita's morning routine • Parts of the clock • Half past the hour 	<ul style="list-style-type: none"> • Identifying analog and digital clocks • Reading and writing clock times • Reading and writing half hour, quarter past and quarter to an hour 	<ul style="list-style-type: none"> • Drawing clockwise and anticlockwise directions • Using finger to show minute hand for "o'clock" and 'half past' • Math Lab Activity - Folding Clock
	December	Time and Calendar (Contd.)	<ul style="list-style-type: none"> • The calendar • The days of the week • Weeks make a month • The months of the year • Writing dates 	<ul style="list-style-type: none"> • Reading and writing names of days and months in normal and short forms • Finding a date from calendar and writing it • Identifying a leap year 	<ul style="list-style-type: none"> • Looking at the Calendar Month and answering the questions • Using hand as a tool to remember number of days in the months of a year • Time and Calendar in real life

Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
Part 4	January	Unit 8: Money	<ul style="list-style-type: none"> • Exchange of money • Forms of money • Reading and writing money • Comparing money • Adding money • Subtracting money 	<ul style="list-style-type: none"> • Reading and writing money in words and numbers • Exchanging and denoting money using different combinations • Comparing money of different amounts • Adding and subtracting money • Solving story sums based on money 	<ul style="list-style-type: none"> • Identifying 'Head' and 'Tail' of a coin • Math Lab Activity - Pay in the Carnival • Money in real life
	January and February	Unit 9: Measurement	<ul style="list-style-type: none"> • Measurement of length • Standard units • Measurement of weight • Measurement of capacity 	<ul style="list-style-type: none"> • Using standard units for measuring length, weight and capacity • Comparing measurements • Estimating length, mass and capacity • Reading the measurement shown on a ruler 	<ul style="list-style-type: none"> • Guessing the distance • Observing how non-standard units differ in measuring length • Heights in cm • Drawing lines less and more than 1 cm • Measuring length with 10 cm paper strip • Weights in kg

MATH

Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
					<ul style="list-style-type: none"> • Knowing the capacity of the bottle • Math Lab Activity - Estimate and Measure
	February and March	Unit 10: Shape and Pattern	<ul style="list-style-type: none"> • Types of lines • Lines around us • 2D shapes • Naming a polygon • Solid shapes • Shape patterns • Patterns with numbers 	<ul style="list-style-type: none"> • Identifying straight and curved lines and making shapes using lines • Sorting 2D and 3D shapes • Drawing and naming different types of polygons • Making different types of shape and number patterns 	<ul style="list-style-type: none"> • Decorating a quilt with different types of lines • Making shapes with given shapes • Pasting similar shapes • Tracing solid shapes • Math Lab Activity - Make a Triangle Pyramid • Drawing a rangoli • Making a 3D image with line pattern • Shapes and patterns in real life

MATH

Part	Month	Chapter	Contents	Learning Outcomes	Activities/Aids
	March	Unit 11: Data Handling	<ul style="list-style-type: none">• Picture graph• Reading a table	<ul style="list-style-type: none">• Counting each item of a collection and recording their number• Showing collection of data as picture graph and pictograph• Drawing a simple block graph• Reading a graph and answering questions based on it	<ul style="list-style-type: none">• Sorting the items• Math Lab Activity - Study on Graph• Data Handling in real life
